9/14/93 0800 hrs - began O.D. on diet
- with inj. Kenalog in R shoulder & H₂O
Mace - O.D. with 25g mace &
1cc tetracycline syringe
- with urea 17g syringe & 18,000,000 g
10⁰⁰ hrs - inj. to syringe
10²⁰ hrs - inj. to H₂O - painful
" " H₂O - turned white
11³⁰ - still painful but trying to
1200 hrs - looks like early scab

9/14/03 - injected began new blood to color
- looks like it's healed
- with try again
- with wait long for local anesthetic.

9/24/03 - still not healed off but
began in definitely deaf
